

Video Editor Job Description

We are looking to hire a talented and experienced Video Editor to join our team. As a lead video editor, you will be responsible for assembling recorded film and video footage, applying artistic editing techniques and creating finished, broadcast-worthy projects that accurately reflect the vision of the director.

To ensure success as a video editor, you should have expert knowledge of modern video editing techniques, be able to visualize directorial concepts and work according to a strict time schedule. Ultimately, a top-notch video editor can perfectly translate a director's idea into a beautifully crafted film/video.

Video Editor Responsibilities:

- Working with the director to determine production vision.
- Manipulating video footage using modern editing techniques.
- Trimming footage and putting together the rough project.
- Inserting dialog, sound effects, music, graphics, and special effects.
- Ensuring the project follows a logical sequence.
- Consulting with the director and production team throughout the project.
- Creating the final cut for broadcasting.

Video Editor Requirements:

- Previous work experience as a video editor.
- Hands-on experience with editing software Adobe Premiere & After Effects, Final Cut Pro X, Avid Media Composer, and/or Lightworks, etc.)
- Creative and artistic skills.
- Ability to deliver projects with excellent visual and audio quality.
- Familiarity with animation and special effects.
- Portfolio of completed film productions.
- Ability to work to a tight schedule.
- Ability to translate ideas into complete projects.
